

HOW TO SELL YOUR RAMP

THE RIGHT WAY

YardRampGuy.com

SELLING? WE'RE INTERESTED

The Yard Ramp Guy's business model calls for partnering with yard ramp sellers.

Our goal: Dominate the used yard ramp marketplace.

Our secret? We don't insult you with lowball offers.

THE CHALLENGES

The headaches of sell-by-owner strategy:

- Do you want to post local online ads daily?
- How would you execute the transaction itself?
- What's your liability when selling a ramp?
- How would you manage logistics once you sold the ramp?
- What's your opportunity cost to handle the transaction?

OUR APPROACH

We...

- Know the market value of yard ramps.
- Are solely focused on the yard ramp marketplace.
- Cultivate a list of prospects from across the nation.
- Have been selling used ramps every day for the past 6 years.
- Are easy for buyers to find via simple Internet searches.
- Handle every detail—from first contacts to delivery.

THE RESULTS

We split the final sale price:

You take 70%. We take 30%.

(That is not a typo.)

THE ADVANTAGES

You win because you've received a fair price for your yard ramp, with virtually no effort or distraction.

The buyer wins by securing a great value—lower ramp and freight costs.

We win by earning a fair profit for our efforts.

OUR PHILOSOPHY

The Yard Ramp Guy sells your ramp by doing what we do every day, so you can continue making money doing what you do every day.

We look forward to partnering with you.
