

4 CONSIDERATIONS WHEN BUYING USED YARD RAMPS

THE RIGHT WAY

www.YardRampGuy.com

1 YOUR APPLICATION

You may see a yard ramp near you, but if that ramp doesn't meet your requirements it has no value.

The Yard Ramp Guy team works diligently to find the best ramps for your application.

2 YOUR LOCATION

You may see the perfect yard ramp for your application, but if that ramp is geographically undesirable it has no value.

We always seek to match your needs with the ramp nearest your location and with the lowest freight costs.

3 PRICING

Before you rule out a yard ramp because you think it is priced too high, consider this . . .

There are only two reasons to own a ramp:
Greater Efficiency and Greater Safety.

Choosing one over the other will not serve you.

4 THE UNPOSTED GEM

The Yard Ramp Guy receives several calls per week from sellers of yard ramps.

Used ramps typically sell quickly.

And while we keep our website listings updated regularly, it is quite possible we have used yard ramps that have not yet been posted to our site.

Call us. Perhaps you'll find that unposted gem.

The Yard Ramp Guy guides you through your buying process.

We relish creative deal-making, the kind our competitors are not willing or able to offer.

WHAT'S THE DIFFERENCE?

We offer the largest inventory of used yard ramps in the nation. We are the only company in America that offers rental ramps throughout the country. Every. Day.

Thank you for the opportunity to earn your business.
